Phone calls are fine from our view, as well. (Calls to top CEOs after arrangements are made through appropriate subordinates in AK. Meaning, this enables the Ak based people to brief the CEO before your call--they will be prepared for you to say you hope they will take a fresh commercial look at participating under AGIA.)

Thanks, we just came out of our meeting with Kinder Morgan. I can brief you more later, but it is clear that they will be calling Conoco and BP to check their pulse. Kinder Morgan will ask whether the cos message has changed from their comments during the legislative process (ie are you guys reconsidering participating now that AGIA has passed)

I was curious whether you had made contact with the producer cos since AGIA passage to say, "I heard your comments during legislative process, and hope you'll consider participating in responding to the RFA once it is out."

It was disappointing to read in Sen Stedman's local paper that he reported on AGIA: "... it was intentionally written to exclude or make it difficult for major oil compoanies to submit a pipeline proposal." If he was misquoted, I'd hope his newspaper would correct it - if not, he's still being a stinker about this.

JB - would you check on this with him today? Let him know it was a great disappointment to read his quote.

Subject: Windor Restoration Schedule

Hello Todd and Governor,

The contractor needed to revise the original schedule submitted, so I've attached the new one. Please let me know if you'd like to make any changes, or I'll assume that it's fine *as is*. I've already sent a copy to Kari.

I don't foresee any complications with this project, but my goal is to keep the contractor working through and around as many events or family visits as possible- just to provide a buffer zone in case we do run into any issues. The contractors are aware that your schedule does determine their work schedule, **so it isn't a problem** if you need to make any requests.

Thank you,
Erika

Ok, thanks. Just finished with El Paso. They plan to do the same thing--check producers' pulse as to whether they will reconsider their options in light of AGIA. At some point earlier in time, these companies were clearly stiff armed out of participation. Our hope now is that all parties will take a fresh look at the opportunity the AGIA environment presents.

Subject: Trips with Fish and Game

Governor:

I want to extend an open invitation to you, Todd, and members of your staff to visit or participate in any of the activities, field camps, special use areas, or surveys conducted or managed by the Alaska Department of Fish and Game. For example, as commissioner I am allowed to issue special permits for visitors (outside of the regular public lottery) to the McNeil River State Game Sanctuary for world-class viewing of coastal brown bears. Also, we conduct a number of interesting field projects (e.g., moose and caribou aerial surveys, radio-tagging of northern pike, stream-walk spawning surveys for salmon, medicinal baiting of wolves, etc.) that you could visit and join in. Your participation would not only be a boon to ADF&G staff, but also a way for you to become more acquainted with our programs and to see some of the lesser-visited portions of Alaska.

Some particular ideas include:

In a few weeks, the department in conjunction with the Hunter Heritage Foundation is conducting a weekend workshop of training activities called "Becoming an Outdoors Woman." BOW has become a very popular program, and I will be attending a portion of this June's program (June 15-17) at Lost Lake south of Fairbanks. As Alaska's premier "outdoors woman" you would certainly be a welcome addition to this, or any future, program. Soon, we will likely be holding a BOW training session in Southeast Alaska. For information, please see: http://www.sf.adfg.state.ak.us/Region3/Programs/BOW/BOWhome.cfm

While this year's permits have already been issued, if you would like to visit the McNeil River bear-viewing program in lower Cook Inlet, I would be happy to reserve slots for you next year. For more information, see: http://www.wildlife.alaska.gov/index.cfm?adfg=mcneil_river.main

Or, perhaps we could arrange a trip for you and Todd this year or next to visit the Round Island (Walrus Islands) State Game Sanctuary, west of Togiak, in association with your fishing season in Dillingham: http://www.wildlife.alaska.gov/index.cfm?adfg=refuge.rnd_is

Or, perhaps a trip into the upper portions of the Bristol Bay drainages, to witness some of Alaska's premier trout sport fisheries: http://www.sf.adfg.state.ak.us/region2/areas/index.cfm/FA/BB.overview

Another trip idea would be to visit Kodiak, perhaps meet with fishermen, and then fly by charter to the south end of the Island to view the set gill net and purse seine sockeye salmon fishery enroute to our Frazer Lake fishpass, where there are not only brown bears but also thousands of sockeye salmon ascending a fish ladder around a natural barrier falls. While passing through Kodiak city, it might be possible to arrange a short trip on a small, local trawl or longline vessel, as well as visit some of the state and federal research and management facilities. For a bit on the Frazer facility and program: http://www.cf.adfg.state.ak.us/region4/finfish/salmon/kodiak/frazer_res.php

This fall you might be interested in joining me on a potential trip to the Noatak and Kobuk Rivers, out of Kotzebue, in order to see the massive Northwest Arctic caribou herd and to see firsthand some of the contentious guide/outfitter/subsistence hunter conflicts

occurring in that part of the state. And, there are certainly opportunities for me to help arrange for you to visit any of the national parks, national wildlife refuges, etc. around the state.

More locally, there are opportunities for day trips, say to our fish wheel salmon counting program at Canyon Island on the Taku River south of Juneau in the mountains near the US/Canada border, or to our weir and fish wheel programs on the Chilkat and Chilkoot Rivers near Haines, overflights of some of the local commercial fisheries, or visits to local salmon hatcheries.

If any of this strikes your fancy, please let me know, and we will work to accommodate your schedule and preferences.

Thanks, DL.

Denby S. Lloyd

Subject: RE: Sp session

Governor:

Yesterday the House Speaker sent a letter to the Senate President requesting consideration for calling themselves into a special session before the end of June to consider 1) Senior Care sunset extension, and 2) passage of authorization for Pension Obligation Bonds.

The hope is that this will be done before June 15th.

At the moment is not public information. There is a chance that the Senate will take the approach of letting the issue remain unsettled for a while. If that is the case, I expect the House will write a letter to the Governor asking us to call a special session.

Please everyone...keep this under our hats until we see how the legislature sorts this out amongst themselves.

John

Interviewed by Donaldson just now (pls add to schedule, Kari) and told him again "yes" on ppt special session once we get logistics wkd out, but not intending sp session on Sr Care unless/until Rep Harris talks to us about what they want to do to fix the problem they created by not funding our request in budget for this nor Longevity Bonus. In meantime we'll keep finding the money for Sr Care continuation, plus be clear about asking for supplemental next yr to cover costs bc we WILL keep funding it somehow even if we dont have sp session on it.

In a few weeks, the department in conjunction with the Hunter Heritage Foundation is conducting a weekend workshop of training activities called "Becoming an Outdoors Woman." BOW has become a very popular program, and I will be attending a portion of this June's program (June 15-17) at Lost Lake south of Fairbanks. As Alaska's premier "outdoors woman" you would certainly be a welcome addition to this, or any future, program. Soon, we will likely be holding a BOW training session in Southeast Alaska. For information, please see: http://www.sf.adfg.state.ak.us/Region3/Programs/BOW/BOWhome.cfm

While this year's permits have already been issued, if you would like to visit the McNeil River bear-viewing program in lower Cook Inlet, I would be happy to reserve slots for you next year. For more information, see: http://www.wildlife.alaska.gov/index.cfm?adfg=mcneil_river.main

Or, perhaps we could arrange a trip for you and Todd this year or next to visit the Round Island (Walrus Islands)

State Game Sanctuary, west of Togiak, in association with your fishing season in Dillingham:
http://www.wildlife.alaska.gov/index.cfm?adfg=refuge.rnd_is

Or, perhaps a trip into the upper portions of the Bristol Bay drainages, to witness some of Alaska's premier trout sport fisheries: http://www.sf.adfg.state.ak.us/region2/areas/index.cfm/FA/BB.overview

Another trip idea would be to visit Kodiak, perhaps meet with fishermen, and then fly by charter to the south end of the Island to view the set gill net and purse seine sockeye salmon fishery enroute to our Frazer Lake fishpass, where there are not only brown bears but also thousands of sockeye salmon ascending a fish ladder around a natural barrier falls. While passing through Kodiak city, it might be possible to arrange a short trip on a small, local trawl or longline vessel, as well as visit some of the state and federal research and management facilities. For a bit on the Frazer facility and program:
http://www.cf.adfg.state.ak.us/region4/finfish/salmon/kodiak/frazer_res.php

This fall you might be interested in joining me on a potential trip to the Noatak and Kobuk Rivers, out of Kotzebue, in order to see the massive Northwest Arctic caribou herd and to see firsthand some of the contentious guide/outfitter/subsistence hunter conflicts occurring in that part of the state. And, there are certainly opportunities for me to help arrange for you to visit any of the national parks, national wildlife refuges, etc. around the state.

More locally, there are opportunities for day trips, say to our fish wheel salmon counting program at Canyon Island on the Taku River south of Juneau in the mountains near the US/Canada border, or to our weir and fish wheel programs on the Chilkat and Chilkoot Rivers near Haines, overflights of some of the local commercial fisheries, or visits to local salmon hatcheries.

If any of this strikes your fancy, please let me know, and we will work to accommodate your schedule and preferences.

Thanks, DL.

Denby S. Lloyd
